[13992] COMMISSIONER FLORIO'S ALTERNATE TO ITEM 13928

R12-06-013 - Order Instituting Rulemaking on the Commission's Own Motion to Conduct a Comprehensive Examination of Investor Owned Electric Utilities' Residential Rate Structures, the Transition to Time Varying and Dynamic Rates, and Other Statutory Obligations.

PROPOSED OUTCOME:

- Approves a new structure for electric rates for residential customers of Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas & Electric Company.
- The new residential rate structure denies the utilities' requests for implementation of a monthly fixed charge, and instead establishes a rate structure that includes a minimum bill amount for all residential customers and a three-tier rate structure with higher rates for higher electricity usage.
- Complies with recent legislative mandates (AB 327) related to residential rate design, including updates to the calculation of the California Alternate Rates for Energy (CARE) discount.

SAFETY CONSIDERATIONS:

- It is the utilities' responsibility to take all actions necessary to ensure that implementation of rate changes approved herein "...promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

ESTIMATED COST:

- The utilities' revenue requirement will not increase as a result of this decision. However, the decision will result in increases and decreases to individual residential customers' electricity rates and bills.
